HORTS IN WHEAT WERE VERY BADLY SQUEEZED

The last man who secured it paid $1.20 for it. Before it rested in his hands brokerage commissions alone on the various transfers aggregated $350.

One of the most influential traders on the board waited until the top had been reached and then delivered the actual wheat at $1.20—100,000 bushels of it. Little wheat came out until $1.18 was reached. At this figure and above a neat profit was garnered. Deliveries amounted to 615,000 bushels, going to scattered interests. It was necessary to extend the delivery period three months before the last account was squared. While several firms are reported to have profited by the deal, common report credit control of September to an Eastern man. In some quarters it is insisted the deal was manipulated by Chicago interests. A furore in the oat pit monopolized attention in the forenoon. Covering of about two million bushels of September oats sent the price up to 50 cents, 5½ cents higher than the previous close. At the top prices elevator interests sold heavily and the market reacted to 48 cents, where it closed.

The Pennsylvania and the Burlington railroads recently reported no loss of life in their passenger traffic during the year. Now we have to add to this list the extensive Santa Fe system and the Chicago & Northwestern. Others, we may hope, will claim a place in the category as the account is made up.

"I might add the further reason that a debate between two Democrats would accentuate the tariff differences that have embarrassed our party in Congress, and give the Republican newspapers a chance to dwell upon Democratic dissensions instead of devoting their time to the contest now being waged between the progressive Republicans and the stand-patters.

"A debate might be pleasing to participants and entertaining to the audience, but I think the subject which I am endeavoring to prevent is worthy of calm and serious consideration.

DICKINSON REPLIES TO GRANT'S CRITICS

ARMY AS SUCH NOT TAKING SIDES ON PROHIBITION.

Individuals Belonging to Army Have Privilege of Voting as They Please.

WASHINGTON, Oct. 1.—No criticism is made by Secretary of War Dickinson in the action of General Grant in taking part in a temperance and law enforcement parade in Chicago in his uniform as a major-general of the United States army. As to such movement, Secretary Dickinson says each soldier and officer has a right to determine for himself.

Secretary Dickinson in replying to a letter from W. R. Michaelis of Chicago, received yesterday, criticising General Grant's right to appear in uniform at the head of a so-called temperance parade in that city last Saturday, says:

"I do not know the facts, but I have seen it stated that it was not a prohibition parade, but a temperance and law enforcement parade. You state that it has been rumored that the Federal Government and the army in general have taken sides with the prohibition movement. If the Federal Government has in any way taken part in any such movement, I do not know it. What individual members of the army may feel about such movements, I do not know. Each soldier and officer of the army has a right to determine that for himself. I do know, however, and state that the army as an organization has taken no side, and will have no right to take sides, either for or against the prohibition movement.

"General Grant participated in the parade as an individual, and not as in any way representing the army or the War Department."

THREE JAIL BIRDS TAKE FRENCH LEAVE

NASSAU COUNTY PRISONERS OVERPOWER JAILER.

One of Them Is Charged With Murdering White Man—All Are Negroes.

FERNANDINA, Oct. 1—A most daring jail delivery was effected at the county jail here yesterday when Jim Sanderson, Jim Smith and Bergin Royles, all negroes, overpowered Jailer Tomlinson and escaped to parts unknown. The greatest of excitement prevailed and the surrounding country is being scoured by officers and citizens.

During the morning Jailer Tomlinson went into the jail for the purpose of cleaning it and making his usual inspection, and when he opened the door leading to one of the steel cages he was suddenly overpowered by the three prisoners mentioned above. He was roughly handled and for a while it looked as though he would be murdered. He was forced to plead for his life and probably would have been killed had he not delivered the keys to the angry prisoners.

The three negroes then offered liberty to three other men confined in the jail but the offer was not accepted. Sanderson, Smith and Royles then left the jail and secured a good start before the jailer could give the alarm.

Royles is the most desperate of the prisoners, he having been locked up only a short while ago for the murder of a white man in Nassau county. A description of the men has been sent to all parts of the State and Georgia and it is hoped that the criminals will be captured shortly.

WHISKEY MEN WON OUT IN THREE ELECTIONS

Roanoke and Rocky Mount, Va., and Vincennes, Ind., Remain in the Wet Column.

ROANOKE, Va., Oct. 1.—Roanoke yesterday, in a local option election, voted by a majority of sixty-nine to retain the licensed saloon. The wets carried three out of four wards and got a majority in all the precincts but two. The total vote cast was 3,219, of which the wets got 1,644 and the drys 1,575. At a local option election December 30 of last year, the total vote was 2,184, and the drys got a majority of eighty-six. That election was thrown out by Judge Staples after a contest by the wets.

Yesterday Walter J. Camper, an election judge in Kimball ward, was arrested on a warrant charging him with irregularities. It was alleged that Camper did not deposit a ballot in the ballot box after it was given in his hands. He stoutly denied the charge, but was carried to jail and later was released on $500 bail.

The campaign conducted by the drys was very live, including many public speakings, free use of the newspapers, a big torchlight procession, etc. On the other hand, the wets conducted a gumshoe campaign. The Virginia Brewing Company issued a letter, which was mailed to the voters, asking that the saloon be retained, claiming that should the city go dry it would mean the confiscation of their large plant.

ROCKY MOUNT WET.

ROANOKE, Va., Oct. 1.—A local option election in the Rocky Mount district of Franklin county yesterday resulted in a victory for the wets by a majority of three. There is but one saloon in the district. It is located at Rocky Mount and pays a license tax of $4,000. The campaign was hotly contested.

WETS WIN IN INDIANA.

VINCENNES, Ind., Oct. 1.—Knox county voted "wet" in a local option election yesterday. Forty-one of forty-three precincts in the county show a majority of 761 for the wets, although returns from the two remaining country precincts may lower this majority slightly. The city of Vincennes voted wet by a majority of 1,709.

Knox is the thirteenth of the ninety-two counties in Indiana to vote wet. Sixty-two counties have voted dry and eight are dry through the operation of the remonstrance law. Nine counties remain in which no action has been taken.

Items of Interest From Every Section of Country.

"All Europe is airship mad! Every automobile factory in France has added an aeroplane department to its equipment and is building either complete machines or engines for aerial propulsion. It's amazing." Jefferson De Mont Thompson, who went to Rheims to represent the Aero Club of America during the recent aviation week, thus summarized the foreign aerial situation when he arrived in New York from Europe.

Some Oregon cattlemen who have been visiting Southern Alaska and the Aleutian chain of islands, with a view to investment, predict that that region will in a comparatively short time be grazing lands for a goodly portion of the world's market of horses, cattle and sheep. They claim that the grasses are superior to the Western bunch grass, and that native hay and foods can be grown easily to supply vast herds and in time prove more marketable and valuable than sheep. They have a big farm in view in Southern Alaska to substantiate their ideas and are arranging the necessary details to that end.

Canada has the largest and fastest terminal grain elevator in the world. This is a statement of fact that may be listed among the accomplishments of a young country in the first decade of the twentieth century. In one single day the Canadian elevators at the head of Lake Superior can unload from miles and miles of freight cars enough wheat to feed a city of 100,000 inhabitants for an entire year. These same vast terminal warehouses at Ft. William and Port Arthur can pour streams of grain into the hold of waiting steamers so fast that their capacity is all that is to be considered. From now on to the close of navigation the elevators at Ft. William and Port Arthur can handle 1,200,000 bushels daily.

Theodore Price Invents Practical Cotton Picker

NEW ORLEANS, Oct. 1.—To the National Association of Cotton Manufacturers Theodore H. Price announces the invention of a cotton picker. If it is, as alleged, thoroughly practical, it is an invention of incalculable value.

In 51 years covered by the seasons of 1853-59 the American cotton crop increased 27.48 per cent. In the last 49 years the increase has been about 285 per cent. The increase in production with slave labor was nearly ten times as great as the increase with free labor. The emancipated negro does not work well in the cotton field. Decrease in the efficiency of his labor has been so marked that importation of Southern European laborers to replace him is being tried. The mechanical picker seems likely to solve a bothersome labor problem. If it meets requirements, we may expect tremendous expansion in American cotton production. The soil is ready, but labor has been lacking.

THE NAVAL PARADE WAS A BIG SUCCESS

PEARY ON THE "ROOSEVELT" WAS DISTINCTIVE FEATURE.

Over One Thousand Vessels Participate in Spectacular Event of Fulton-Hudson Celebration.

NEW YORK, Oct. 1.—With Commander Robert E. Peary, and every member of the crew that accompanied him on his quest of the North Pole aboard, the steamer "Roosevelt," just back from the region of eternal ice, was the salient feature of the naval parade today up the lower Hudson to meet the Half Moon and Clermont at Newburg. This naval parade was the principal incident of the celebration today, so far as Manhattan was concerned.

In Brooklyn the historical pageant of last Tuesday was repeated, and there was everywhere the usual expectation of the aeroplane flights, but a great majority of sightseers flocked to the banks of the Hudson. There they saw a great fleet of excursion steamers, steam tugs, yachts, motor boats and other craft, which rendezvoused between Fort Lee and Spuyten Duyvil.

The "Roosevelt's" progress from quarantine to her dock at the foot of West Forty-second street, was marked by a continuous blast of whistles, and when she came off Riverside drive, where the crowd was gathered and started on her way up the river the salute was taken up by thousands of cheering voices.

A Spectacular Event.

The naval pageant in connection with the Hudson-Fulton celebration was the greatest in the history of the United States, and perhaps the greatest the world has ever seen. Over 1,000 vessels, including cruisers, battleships, steamboats, private yachts, tugs, steam lighters and motor boats, participated in the event.

The vessels were divided into eight squadrons, each commanded by a flag officer. The squadrons were then divided into divisions of not fewer than four vessels, all in line except the United States naval ships, being under command of Captain Jacob W. Miller, chairman of the Hudson-Fulton's commission for the naval parade.

There were eighty warships in line, fifty-three being detailed from the Atlantic squadron of the United States navy.

Foreign nations represented were Germany, England, Italy, France, Mexico, Argentine, Chili and Peru. River towns along the Hudson devoted the day to exercises along the river side, fetes and champetres wherever the nature of the water front made such a program possible. At Newburg the Half Moon and Clermont were turned over to an up-river squadron, which will take the replicas on to Albany for next week's celebration

A Frank Estimate.

To many persons who are not actors the stage seems a delightful and fascinating place. In a book called "The Actress" Louise Closser Hale, herself an actress, tells some of her experiences with girls who envy her her profession. One day one of them from behind a counter in a shop said, "I should have went on the stage."

"She evidently wanted to talk, and I strove to be interested," says Miss Hale.

"But see how tired I am," I said to her. "I have to work very hard as it is, and I had to work much harder to gain what little recognition I have had."

"Oh, yes," she responded, complacently gazing at herself in a mirror. "But, you see, I have talent."

Struck a Bargain.

An old woman recently entered an optician's shop and asked to look at some spectacles. Choosing a pair, she asked the price.

"Five shillings," was the answer.

"And how much are they without the case?"

"I could not sell them for less than 4s. 10d.," said the tradesman, who was determined to get all he could.

"Do you only take off twopence for the case?" queried the woman.

"That is all. The case is worth no more than twopence," was the reply.

"That is good news!" ejaculated the old lady, with a sigh of relief. "It's the case for mine which I have lost."

So saying, she laid down the twopence and marched off with the coveted case before the astonished shopkeeper had time to interfere.—London Mail.

Taking After Father.

"It has its father's nose!"

"And its mother's eyes!"

"And Aunt Alice's mouth!"

"And Uncle Ebenezer's ears!"

Such, multiplied by about a hundred, were the criticisms leveled by kind friends against the Fitzboodle baby.

Then the unconcerned baby began to calmly chew his big toe.

"Ah!" murmured Mr. Fitzboodle. "Baby is certainly endowed with some of my wife's chief characteristics!"

"Not to mention you, Fritz Fitzboodle!" snapped his wife. "Baby never opens his mouth without putting his foot in it!"

Maternal Instinct.

We talk about "maternal instinct." There is no such thing. To be sure, there are things that have to do with young which females possess and males lack. The wasp lays its egg on the body of the caterpillar for the larva it will never see. The hen sits twenty-one days on any roundish, whitish object of the proper size. I have seen at a children's party every little girl leave the supper table on the advent of a baby and every little boy go stolidly on with his supper. But each kind of mother has its own bundle of instinctive reactions. There is no "maternal instinct" in the abstract.—McClure's Magazine.

WOMAN'S MUTILATED BODY DISCOVERED

CORONER'S JURY RECOMMENDED ARREST OF HUSBAND.

Was Seen With His Wife Tuesday Afternoon In Woods Near Where Body Was Found.

SPARTANBURG, S. C., Oct. 1.—The discovery early yesterday of the mutilated body of Mrs. Martha Foster, covered beneath a mound of brush and pine needles in strip of woodland north of Beaumont Mill village, near this city, has revealed a revolting murder, and left the police authorities at sea. The coroner's jury rendered a verdict last night to the effect that the woman came to her death by being beaten in the head with some blunt instrument, and recommended that Doc Foster, her husband, be held until the circumstances surrounding the case are further developed. He is in jail.

Foster was seen with his wife Tuesday afternoon in the woods, where her body was found. He denies any knowledge of the crime, and stated last night that he last saw his wife Tuesday evening in a hack with an unknown white man and negro driver. She told him then she was going to a neighboring village to see some friends.

Mrs. Foster had been in the State asylum for the insane for six months, and returned only two weeks ago. She has six children, some of whom are in an orphanage in Greenville.

The police believe the murder was not committed in the woods, but that the body had been carried there. Physicians say the woman had not been dead more than forty eight hours. The skull was crushed in several places, one arm was broken and the fingers badly cut.

Foster at one time was a successful farmer. He is 60 years of age. When arrested yesterday he was seated in his room reading the Bible, and expressed little surprise when told that his wife had been murdered. He was taken to where the body lay in the woods, and after viewing it in an indifferent fashion, said:

"Yes, that's her."

Dangers of Handwriting.

A young man is bringing an action against a graphologist in Paris for substantial damages. A pretty heiress, to whom he was engaged to be married, showed a specimen of his handwriting to the graphologist and asked for information. This is the reply she got: "If you should meet the man who wrote these lines upon your way through life avoid him. He is an egotist and a fool, has a bad temper and a despicable nature. The existence of the woman who has the misfortune to marry him will be a Calvary." The marriage has been broken off; hence the action.

Splendid Vaudeville Attractions Secured for Coming Week.

Messrs. Voyle & McCollum of the Baird Electric Theatre, desirous of pleasing the amusement-loving people of Gainesville and furnishing the best in the way of attractions, have secured the necessary paraphernalia for a number of illustrated songs which will be rendered by Miss Wagnon at this popular play-house.

For the week beginning Monday, Oct. 4th, they have secured J. A. Shadrick, one of the greatest comedians in this section of the country, who will remain here for performances Monday, Tuesday and Wednesday nights, after which another attraction will be presented, this to embrace the balance of the week. Mr. Shadrick has appeared in all the largest cities of the South and the press and public unite in recommending him as one of the best in his line that has yet been this way.

These attractions, together with the splendid motion pictures and illustrated songs, combine a most pleasing program, and one that the people of Gainesville will no doubt heartily enjoy.

The management of the Baird will at all times strive to offer only amusements of the highest class, which will result in increased and better satisfied audiences.

SCARLET FEVER RAGES IN PITTSBURG, PA.

PITTSBURG, Pa., Oct. 1.—The epidemic of scarlet fever, which has been growing for two weeks, is now causing great worry to the State Board of Health, a representative of which is working to stay the spread of the disease.

The epidemic has spread to Rankin and Swissvale boroughs and grips Braddock and North Braddock.

In Braddock two families lost two children each during the last three days.

Deaths are becoming more frequent every day. Forty-one cases are quarantined. Foreigners evade quarantine, thus carrying the disease to American families. The schools were fumigated today, and will likely be closed next week.

Death of Mrs. Fix.

H. A. Fisher has received the sad intelligence of the death of Mrs. Susan Fix, the aged mother of his wife, which occurred at her home in Boswell, Ind., a day or two since. Mrs. Fisher was summoned to Boswell several months ago on account of failing health of her mother, and finding her condition quite critical, decided to remain until the end came. While the demise of the lady was not unexpected, it was a great shock to her relatives and friends, and Mrs. Fisher's many friends here will extend sympathy in her hour of trouble.

THE UNIVERSITY HAS FLATTERING PROSPECTS

ATTENDANCE NEARLY TREBLES THAT OF LAST SEASON.

Athletic Feature of School Will Also Prove Interesting to the Large Attendance.

The first week of the University started off under most favorable circumstances, and there is now a registration at this institution of 129, nearly three times as many as the total attendance at the last session.

Inerest among the students is even greater, and on all sides the prospects for a very prosperous term are bright and highly encouraging to the faculty and the president, who have worked hard for the mammoth increase during the past summer.

The law department has now been fully organized, and more students are expected to arrive within the next few days to enter this department, while reservations have been made for about fifteen more to enter the school.

The athletic features this season will be better and brighter than in the past, owing to the large attendance and the increased interest that is taken by the student body, and a large number of games for the season will be scheduled.

A large and interesting meeting of the association was held at the University on Friday morning, which showed that much interest was manifested in the athletic feature and some really fine sport is expected of the U. of F. squad this season. The football boys have gotten together and are already practicing for some of the games that are to be played in the very near future.

Thanked His Stars.

When the French revolution broke out a number of scientists lost their lives, but Lalande, the astronomer, only paid the more attention to the skies and his constellations. When he found, after the reign of terror, that he had escaped the fury of the mob he exclaimed gratefully, "I may thank my stars for it." Would any apparent jest possess more genuine truth?

Allison tells how during Napoleon's Egyptian campaign no sooner were the mameiukes observed at a distance than the word was given. The command afforded no little merriment to the soldiers even at such an exciting moment and made them call the asses demisavans.

Mesdames J. W. Alsop and J. R. Howell returned to Cedar Key yesterday to spend the next few weeks. The former recently spent a few days there and was so well pleased with the place that she decided to return again and spend some time.

J. A. Rosborough, J. F. McDonald, C. E. Shaver and B. B. Lumpkin formed a quartet of Gainesville young men who visited Windsor on Thursday evening to attend a social function at that place. They returned in the "early morn," and state that the time was spent so pleasantly that they do not regret the loss of sleep.

"Congressman Farris?" Wouldn't that jar you?

A man who returns from his summer outing with a word of pessimism on his lips would be a curiosity these days.

In a short time the Wright brothers should have airships in shape to go rapidly over the routes and verify the reports of explorers.

The chauffeurs have organized in Washington, and hereafter no automobile wrecks will be recognized that do not bear the union label.

A headline says John D. objects to "all games of chance." But very few of us can, like Mr. Rockefeller, nail down a sure thing every time.

But it will be fine when they begin to keep summer boarders up at the North Pole, with aero excursions from all prominent points. Just wait.

Now that Mr. Aldrich has received a near-indorsement from the President's hands, Uncle Joe Cannon will probably take on an expectant look.

Having been living on the "Roosevelt" for several months, it is only natural that Peary couldn't think of anything else to call Cook than a liar.

There are now four candidates for Congress from this district, Alachua, Dade, Duval and St. Johns counties furnishing them. The race will be between Alachua and St. Johns county candidates.

Gifford Pinchot's companion, Senator Flint of California, got lost on a Pacific island and rolled down fifty feet in a canyon. He got some severe bruises, but feels that he was quite lucky compared with Mr. Pinchot.

The Sun is in receipt of the "Special Everglades Edition" of The Miami Daily Metropolis. It comprises forty-eight pages, of 336 columns, handsomely illustrated with views of the Everglades country, and is a great credit to the publishers.

There ought to be some way of putting a stop to the shipment and sale of green Florida branges. The Gainesville fruit dealers are now displaying this green fruit and offering it for sale, but a person with common sense is not likely to "bite" at the price of "three for a nickel." It was hoped that the new Citrus Fruit Exchange would be able to stop the shipping of green oranges and grapefruit this season, but it has not had the desired effect in this section.

So the Hon. Ion L. Farris, Speaker of the Florida House of Representatives, has decided to "go out after Frank Clark." Mr. Farris made a spectacle of himself by being on both sides of the Jacksonville charter bill at the last session of the Legislature, and is about the weakest man today, politically, in Duval county, neither faction having any confidence in him politically. If he thinks the people of this district will entrust their interests in Congress to such a political acrobat he will find that he is badly mistaken when the votes are counted.

GOOD ROADS.

That the farmers of Hamilton county are alive to the benefits to be derived from the construction of hard roads is evidenced by the following from The Jasper News:

"The farmers of this county are becoming interested in good roads. As evidence of this statement, at the last session of our board of county commissioners a proposition was presented to that body, signed by fifty farmers residing north and east of Jasper, that if the commissioners would furnish the rock they would meet every Saturday and haul it out on the roads.

"This means fifty wagons hauling rock every Saturday and this would soon make good roads for several miles east from Jasper. It would do away with those terrible sand beds which extend two or three miles from town, and the material being rock it would be a permanent work.

"This rock, which is just such as the streets of Live Oak, Newberry and other towns are paved with, can be purchased for 65 or 75 cents a ton delivered here in Jasper. Thus it will be seen that these farmers propose to pay with their teams and labor about three-fourths of the expense of building these good roads.

"This proposition our county commissioners will accept beyond the shadow of a doubt. In fact, they cannot afford to do otherwise, because it is a duty they owe to these taxpayers who so nobly propose to bear by far the larger part of the expense.

"But our county commissioners need no urging, nor argument along this line, for their actions in the past have demonstrated their public spirit and their desire to have good roads built.

"We complain of our taxes, and justly, too, for they are higher than in the days of carpet-bag reconstruction, but burdensome as our State and county taxes are they are not to be compared to the tax levied by bad roads. Where the Saul of State and county taxation has slain its thousands, the David of bad roads has slain its ten thousands.

"These public spirited farmers, who thus propose to donate their labor, are to be commended; their noble example emulated, and their proposition accepted."

Dr. Cook is passing through a difficult ordeal. He has been assailed by a man whose recognized achievements as an explorer lent peculiar force to his formidable impeachment of the Doctor's veracity. But even the most virulent of Peary's partisans must now confess that through all the irritations of an exasperating controversy Dr. Cook has maintained a coolness and restraint that compel respect and encourage belief. We are aware that this dispute over priority in Arctic discovery has only just begun. The real fight will develop when Dr. Cook submits his scientific data to the inspection of men qualified to pass upon their value.

Judge E. H. Gary, chairman of the board of directors of the United States steel corporation, announces, after returning from Europe, that "a decided improvement in commercial and financial conditions is apparent in France and England. Investors of those countries are displaying increased interest in American securities. Their desire for them is doubtless due to an effort to escape taxation. They seem to put their money into paying investments that will not be fully taxable." Such expert testimony as to the continued prosperity of this country is always welcomed.

Catarrh Cannot Be Cured

with local applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials free.

Governor Hughes of New York and Governor Fort of New Jersey are fighting along similar lines in their effort for political reform, particularly in relation to primaries. The principle of direct primaries for which they stand is in marked contrast with that which has characterized the Western movement. In the West parties have been destroyed and political anarchy has resulted, in which individualism has taken the place of party organization, and in which bosses maintain a supremacy as menacing to popular rights as that of machine bosses, by reason of financial resources, by virtue of personal magnetism, or by a cleverness in political demagoguery which sways public opinion. Governor Hughes works along different lines. He believes in organized effort. He believes in party unity, in party solidarity of the right sort. He applies to politics the truth that in union there is strength, and believes that only in well ordered, carefully formulated and defined party policy can sound public sentiment achieve its purpose and true democracy find its best expression in representative government.

A Boston hatter has received, by way of the dead letter office, $146 in as many letters, each envelope having contained a $1 bill. There seems to be no way of identifying the sender. The recipient says the money may come from a man for whom he once made a silk hat and who failed to pay for it at the time. Allowing for interest and all that, what we would like to know is how much the tile was supposed to be worth in the first place?

Extensions which will add 2,000 miles of trackage, and will cost $100,000,000, are announced by managers of the Harriman system. The master railroad builder is dead, but his plans live on without break, and with some of his millions as foundation for building.

NEWS FROM ALL PARTS OF FLORIDA

The new Masonic Hall at St. Mary will be dedicated Wednesday, October 13th.

The half-holiday season in St. Petersburg will continue all through October.

Jacksonville is now taking up aviation as an attraction for the winter tourists.

Col. Theodore S .Cooghler, Sr., an old and highly respected citizen of Brooksville, died last week.

The plans for Jennings' new hotel have been drawn and the contract for its erection will soon be let.

Last Monday closed the season at Amelia Beach, Fernandina. The trolley cars have stopped running there.

A large crowd attended the gathering at New Smyrna Thursday in the interests of the deepening of Mosquito Inlet.

Mrs. J. E. Tatum, mother of the Miami Tatums, died in Orlando Monday. She was 80 years old.—Ocala Banner.

The great Barnum and Bailey circus is coming to Florida. It is billed for a performance in Pensacola early in November.

New street crossings of vitrified brick are being laid in West Palm Beach to connect with the cement walks that have recently been put down.

"Grandpa" Green of Sutherland fell through a trap door of the laundry into a well of very hot water. The well was ten feet deep, but he escaped with only a few bruises and a fractured rib.

Last Saturday the Dutch steamship "Zeeburg," bound from Hamburg to Jacksonville, went ashore at Mayport during a heavy gale. It was reported that the seas were running over her smokestacks.

The first wholesale shoe house ever to be established in Pensacola will be that of N. G. and Ed Forcheimer, under the name of Forcheimer & Company. The firm will open its doors in a very few weeks.

Tampa gave a royal welcome to the first steamship from Philadelphia, which adds another link to Tampa's chain. A big banquet was given to celebrate the occasion, accompanied by a great flow of oratory.

The Young Men's Christian Association of Pensacola will open a night school on October 11th. The school is for the young man who needs special training along the lines of his trade or business, or a better general education. It is a very admirable work.

Tuesday afternoon the second arrest in connection with the investigation by Detective W. R. Brack into the Platt murder case was accomplished in Tampa. S. T. Smith, a young white man who works for the Tampa Electric Company, was placed under arrest.

Dr. Gresham, a prominent analytical chemist of Florida, with headquarters in Jacksonville, has discovered that the wild coffee bean can be put to practical use. A very valuable dye, or mordant, can be made from the beans. The price offered for them ranges from $5 to $8 per ton.

Two negroes, Will Anderson and Ben Stephens, of Pensacola, went up in the northern part of the county carrying a large amount of whiskey with them to a dry town. There they sold it for so much per drink. They were caught up with and fined $250 and costs, by Judge Beggs.

The Dade and Palm Beach boards of county commissioners in joint session at Miami have at last arrived at an agreement for the assumption of debts of old Dade county, leaving the new county of Palm Beach owing Dade county $41,498.91, exclusive of the pro rata share of unpaid warrants outstanding June 30.

The storm of last week, which continued through Monday of this week, did some little damage in St. Augustine Bay. Bay street was flooded on account of a very high tide, and the tidal flood swept up through the storm sewers and filled the streets near The Record office several inches deep. The Central Hotel at Anastasia was lifted up and sat flat down on the beach.

BABY'S ITCHING WAS INTOLERABLE

Girl of Six Months had Fearful Attack of Eczema—Spread All Over Her Face and Eyes Began to Swell—Scratched Till Blood Came—Relieved in a Night and

CURED BY CUTICURA AFTER LONG SUFFERING

"When my little girl was six months old I noticed small red spots on her right cheek. I did not pay any attention to them but finally the spots grew so large that I sent for the doctor who said it was ringworm. He prescribed an ointment which I used for two weeks, but instead of helping the eruption, the ointment seemed to make it worse. Then I went to a second doctor who after examining the baby said it was eczema. He also gave me an ointment which did not help either. The disease in the meantime spread all over the face and the eyes began to swell. I became very anxious. The itching grew intolerable. I had to tie the baby's hands to the cradle to prevent her scratching. The cheeks were covered with blood and it was a terrible sight to see. I consulted doctors from September to December, but they were unable to cure the baby. I paid out from twenty to thirty dollars without relief.

"One of my friends told me of the Cuticura Remedies and I sent at once for a set which I began to use that evening. The next morning the baby's face was all white instead of red and you can imagine how surprised I was. I cannot find words enough to praise Cuticura and I do not know what would have become of my baby only for it. I used the Cuticura Remedies until the eczema entirely disappeared. The child is now three years old and quite well. I used three cakes of Cuticura Soap, two boxes of Cuticura Ointment and one bottle of Cuticura Resolvent and I never use any other soap. I always recommend them whenever there is a chance for doing so. I will send you one of her pictures which she had taken just after she was healed. Mrs. P. E. Gumbin, Sheldon, Ia., July 13, 1908."

Cuticura Soap (25c.), Ointment (50c.), Resolvent (50c.), and Chocolate Coated Pills (25c.), are sold throughout the world. Potter Drug & Chem. Corp., Sole Props., 137 Columbus Ave., Boston.

ORPHANAGE DAY.

The first Saturday in October will soon be here. We ask that everyone in Florida give the earnings of that day to the Florida Baptist Orphanage, Arcadia, Fla. This institution is for poor white orphans of the State of Florida, irrespective of religious creeds or nationality. If you do not earn anything on the first Saturday in October, send us the earnings of some other good day. With many this is a very happy day, because they are working to help the orphans. We need means to maintain and train and educate these orphans, and others that are coming.

But let me mention another matter. More than twenty months ago we began a sanitarium which we have constantly needed. Today its brick walls stand complete and bare, because we have not had the money to go forward with the work. Please help to furnish this building.

Will not merchants, every business organization, people in every occupation, churches, Sunday schools, women's societies, young people's unions, and organizations, secret orders, every individual in the State, send us help on the first Saturday in October? If you will, I am sure we will be able to go forward with the work and finish the sanitarium which we have needed so long. Send money to

FOR CITY MARSHAL.

To the Voters of the City of Gainesville: A special election having been called on Tuesday, October 19, for the election of a Marshal to succeed Ben T. Arnow, resigned, I beg to announce that I will be a candidate for that office, and ask the support of my friends. Being thoroughly experienced along the line of police work, which has been gained by a practical experience, and being now acting Marshal, if my action in this capacity meets your approval, I ask your votes to be continued in office.

Sincerely, HARRY L. OWENS.

I respectfully announce myself a candidate for City Marshal at the special election to be held on October 19th. I am in the race until the polls close on the day of the election, and respectfully solicit the votes of my fellow-citizens, promising, if elected, to perform the duties of the office without fear or favor. Give me your support, and you will never have cause to regret it.

THE SUN "WANT" ADS. BRING RESULTS

THE FIRST CHOICE.

It Was Right, Too, Because the Bravest Are the Tenderest.

Some years ago the excursion steamer returning from Alaska to Seattle dislocated its propeller in a dreary portion of the inner passage and came to a forced stop. For two days the vessel's engineers and machinists labored to repair the break, but without success. Two of the boats were manned and dispatched for aid to Victoria, 300 miles away. In the meantime it was discovered that the ship's stores were not abundant. Alarm bred in the minds of pessimistic passengers, and the contagion spread. Starvation might assail the vessel before help arrived.

A former California official took it on himself to reassure his timid companions, but his effort was not perfectly adapted to raise drooping spirits. In fact, his closing sentences but added to the gloom. "Let us be brave," he said. "If the worst comes and that dread necessity which in such misadventures has met others must be faced by us, let us remember that it is good to die that our friends may live. The one or more that may be sacrificed will be consoled by that thought."

There was a moment's silence, awful in its intensity, then a cheerful voice was heard. "You should be taken first, Governor Booth. You know the bravest are the tenderest." And even the terror stricken smiled once more.—San Francisco Argonaut.

TAPA CLOTH.

Attire of the Native Hawaiians Before Civilization Arrived.

The "paper mulberry" tree (Broussonetia papyrifera) is the source of the famous "tapa cloth" of the Polynesian islands. This is a natural tissue and is derived from the inner bark and after being torn off in strips is scraped with shells and beaten with a mallet until it resembles a soft, flexible paper. The individual strips are united by overlapping the edges and beating the fibers together until large pieces of the tissue are formed.

It is said that before Hawaii was swept with the wave of civilization men and women were dressed in this natural bark cloth "tapa" or "kapa." The dress of the women consists of the "pa-u," or wrapper, composed of five thicknesses of tapa, about four yards in length by three in width, passed several times around the waist and extending below the knee. The dress of the men was the "malo," or girdle, about a foot in width and several yards long. A "kikel," or mantle, six feet square, was sometimes worn by both sexes. In former years these natural cloths were sometimes bleached to snowy whiteness or were dyed in colors and even printed or ornamented usually in checks or squares.—Exchange.

INDIGESTION?

DYSPEPSIA?

Thought Astor Was Crazy.

People said John Jacob Astor was crazy because he paid $1,000 an acre when he bought the estate of Aaron Burr about a hundred years ago. It was a farm of 120 acres, located about where Twenty-first street is now in Manhattan. In ten years he commenced to sell lots at $5,000 an acre; but, fortunately, he did not sell much at that price. What it is worth today is hard to compute in millions.—Cent Per Cent.

TELEPHONE TALKS

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

GAINESVILLE,

—THE—

University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit a few of them in the following enumeration of what

Gainesville Has:

One artist.
No saloons.
One garage.

Who Pays For Your Printing?

Poor printing is a detriment to any buisness, and is an unprofitable investment. Poor printing is usually paid for twice—once when you settle with the printer, and again in the injury it does your business.

GOOD PRINTING PAYS FOR ITSELF!

In the added business it brings, in the complete satisfaction you feel in sending out neat, tasty stationery, and its first cost is soon on the credit side of the ledger. Good printing is remembered long after the price is forgotten.

THE FIRST CHOICE.

It Was Right, Too, Because the Bravest Are the Tenderest.

Some years ago the excursion steamer returning from Alaska to Seattle dislocated its propeller in a dreary portion of the inner passage and came to a forced stop. For two days the vessel's engineers and machinists labored to repair the break, but without success. Two of the boats were manned and dispatched for aid to Victoria, 300 miles away. In the meantime it was discovered that the ship's stores were not abundant. Alarm bred in the minds of pessimistic passengers, and the contagion spread. Starvation might assail the vessel before help arrived.

A former California official took it on himself to reassure his timid companions, but his effort was not perfectly adapted to raise drooping spirits. In fact, his closing sentences but added to the gloom. "Let us be brave," he said. "If the worst comes and that dread necessity which in such misadventures has met others must be faced by us, let us remember that it is good to die that our friends may live. The one or more that may be sacrificed will be consoled by that thought."

There was a moment's silence, awful in its intensity, then a cheerful voice was heard. "You should be taken first, Governor Booth. You know the bravest are the tenderest." And even the terror stricken smiled once more.—San Francisco Argonaut.

TAPA CLOTH.

Attire of the Native Hawaiians Before Civilization Arrived.

The "paper mulberry" tree (Broussonetia papyrifera) is the source of the famous "tapa cloth" of the Polynesian islands. This is a natural tissue and is derived from the inner bark and after being torn off in strips is scraped with shells and beaten with a mallet until it resembles a soft, flexible paper. The individual strips are united by overlapping the edges and beating the fibers together until large pieces of the tissue are formed.

It is said that before Hawaii was swept with the wave of civilization men and women were dressed in this natural bark cloth "tapa" or "kapa." The dress of the women consists of the "pa-u," or wrapper, composed of five thicknesses of tapa, about four yards in length by three in width, passed several times around the waist and extending below the knee. The dress of the men was the "malo," or girdle, about a foot in width and several yards long. A "kikei," or mantle, six feet square, was sometimes worn by both sexes. In former years these natural cloths were sometimes bleached to snowy whiteness or were dyed in colors and even printed or ornamented usually in checks or squares.—Exchange.

TELEPHONE TALKS

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems, operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

GAINESVILLE,

—THE—

University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit a few of them in the following enumeration of what

Who Pays For Your Printing?

Poor printing is a detriment to any buisness, and is an unprofitable investment. Poor printing is usually paid for twice—once when you settle with the printer, and again in the injury it does your business.

GOOD PRINTING PAYS FOR ITSELF!

In the added business it brings, in the complete satisfaction you feel in sending out neat, tasty stationery, and its first cost is soon on the credit side of the ledger. Good printing is remembered long after the price is forgotten.
